

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION
MANDATORY LANGUAGE - TIER III**

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

CITY OF BEASLEY has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 01/01/2019-12/31/2021 we did not complete all monitoring or testing for Lead and Copper Monitoring and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Lead and Copper, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>Lead and copper tap water sampling</i>	<i>Yearly</i>	<i>5 (should have been 10)</i>	<i>12/17/2021</i>	<i>12/18/2021</i>
<i>Lead and Copper entry point sampling</i>				
<i>Water quality parameters</i>				

What is being done?

We are working to correct the problem. For more information, please contact Misty Tiemann at 979-387-2775 or P.O. Box 122-Beasley TX, 77417.

There was miscommunication from TCEQ on the required number of samples that were to be taken. We were told to change the number of samples AFTER the samples were taken and sent in. The next samples will have the correct numbers verified by TCEQ BEFORE the samples are collected and sent in.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Mail via water bills. Public Water System Number:
